**24 HOURS A DAY – 7 DAYS A WEEK**

Mudgee Cranes is a local, family run crane business based at 31 Sydney Road Mudgee NSW. Our extensive fleet and highly experienced operators are available 24 hours a day, 365 days a year. We can offer you the right crane to suit your needs with crane ranging from 14T to 160T lifting capacity.

With over 30 years of local crane experience under both Mudgee Cranes and Hooper Engineering, our extensive fleet and experienced staff have built a strong reputation based on performance, safety, and reliability. We are the 'first-call' crane supplier for many local and mining businesses, including local mine sites in the Mid-West, Mid-Western Regional Council, solar projects, wind projects, rail work, local engineering companies, local construction sites and agricultural services.

Our professional team can help you create a unique lift-plan to suit your needs, whether your lift is straightforward or complex. Also available for hire are workboxes, riggers, dogmen, crane operators and other speciality rigging gear. For all your crane hire requirements and unrivalled local service, contact Paul or Jess at Mudgee Cranes today.

Copies of the following information are available upon request:

Workers Compensation, Public Liability Certificate of Currency, Motor Vehicle Insurance, CraneSafe, NDT Testing, Lifting Equipment Registers, and other inspections as required.
